

Name: _____

Energy Source: _____

Electricity Power Point Presentation Rubric

Category	Exemplary (12)	Proficient (10)	Emerging (8)	Beginning (6)
History of Energy Source	Proficient + a diagram, graph, or table is included which illustrates history	History of energy use includes a timeline with dates and descriptions	History is not thorough enough or timeline does not include dates and descriptions	History is brief and is missing lots of information
Electricity Generation	Proficient + your method of electricity generation is compared to another method	Description is thorough and diagram is labeled	Description is not thorough enough or diagram is incorrect	Either description or diagram is not included
Energy Transformations	Proficient + a written explanation of energy transformations is included	All energy transformation steps (and their type) are included with arrows in-between each	Some transformation steps (or types) are missing or are incorrect	Many transformation steps (or types) are missing or are incorrect
Raw Materials	Proficient + raw material is compared to another method of electricity production (i.e. sun vs. coal)	Description of raw material, how long it will last and a map is included	One of the following is missing: description of raw material, how long it will last or map	Two of the following are missing: description of raw material, how long it will last or map
Cost per kwh	Proficient + cost per kwh for your method is compared to other methods of electricity production	Cost per kwh is accurate and current	Cost per kwh is either not accurate or not current	Cost per kwh is not accurate and not current
Advantages	More than three advantages are included	Three advantages are included	Two advantages are included	One advantage is included
Disadvantages	More than three disadvantages are included	Three disadvantages are included	Two disadvantages are included	One disadvantage is included
Pollution	Proficient + includes effects pollutants have on the environment and/or people	All types/how much of pollutants or how much pollution is reduced using your method is included	Missing one or two types of pollutants or amount of reduction is not accurate	How much of each pollutant or amount of reduction is not included
Electricity Production in VT	Proficient + government incentives to use or not use your method are described	If used in VT – where, how much, increasing or decreasing; If not used in VT – is it a possibility, where, how much?	Missing one of the requirements from “proficient” category	Missing two of the requirements from “proficient” category

Category	Exemplary (12)	Proficient (10)	Emerging (8)	Beginning (6)
Other Interesting Facts	More than three interesting pieces of information are included	Three interesting pieces of information are included	Two interesting pieces of information are included	One interesting piece of information is included
Works Cited	More than 5 internet and 3 book sources are cited in correct bibliography format	At least 5 internet and 3 book sources are cited in correct bibliography format	Missing one or two internet or book sources or some are not in correct format	Missing more than two sources or not in correct format/order
Organization and Attractiveness of P.P. Presentation	Extra effort is put into special effects, backgrounds, etc.	Organized in logical order and good use of bullets, fonts, colors, graphics, effects, etc.	Not in logical order or could be more attractive	Not in logical order and plain looking
Creativity and Originality of P.P. Presentation	Large amount of original thought, ideas creative	Product shows original thought and creativity	Product uses other people's ideas and is plain looking	No creativity or originality evident
Spelling/Grammar	No spelling or grammar errors	There are no more than 4 spelling/grammar errors	There are more than 4 spelling/grammar errors	Spelling or grammar errors detract from readability
Presentation Skills	Proficient + extra thought/creativity put into presentation (i.e. costumes, props)	Each person speaks loudly/clearly, uses eye contact, and summarizes information (doesn't read straight from P.P.)	Either not loud/clear enough, no eye contact or information is read straight from P.P.	Not loud/clear enough, no eye contact and information is read straight from P. P.

Individual points (out of 30): _____

	Exemplary	Proficient	Emerging	Beginning
Total Possible Score	210 (105%)	180 (90%)	150 (75%)	120 (60%)

*** If any typed information is cut and pasted onto your power point presentation from the internet, you will receive a 0 for that slide. Be sure to cite all resources (including pictures/diagrams) you used to create your Power Point Presentation.**

TOTAL POINTS EARNED: _____ **(out of 200)**

FINAL GRADE: _____
